

Lamar CISD uses The School Alert System to alert the media and the general public if there is an unexpected delay or cancellation of the school day.

Parents can subscribe to the System to receive texts or e-mails at the same time the message is being given to the local media.

Go to [www.school-alerts.com](http://www.school-alerts.com), and then enter your school, or school district, and your e-mail address. There is no charge for this service.
